

**ARCHANGEL
SCHOOL**

2400 Chili Avenue Rochester, NY 14624 • 585-247-1112

Dear Parent/Guardian

According to New York State Law, all students entering 7th grade and/or 12th grade on or after September 1, 2017 will be required to receive the Meningococcal Meningitis vaccine. Meningococcal Meningitis is a serious brain infection that can lead to death within hours, and survivors may be left with severe disabilities.

Please check with your child's pediatrician to be sure that this requirement has been met. Students without proof of Meningococcal Meningitis vaccine will not be permitted to attend school.

Please call your child's pediatrician or the Archangel Health Office with any questions.

Thank you for your attention to this immunization requirement.
